Franklin General Hospital *Daily Huddle*

July 28, 2008

Go Live a *success!*

Franklin General Hospital went live at 10:38a.m. on Saturday, July 26. All three sites that went live are doing well, with minimal issues. We are currently where we anticipated being and are in great shape. To date 66 heat ticket issues have been logged, 46 of those issues have been closed.

“This is the best go-live I have been associated with”

-Dr. Courtney Bochmann, FGH Physician

Dr. Bochmann, the on call physician for the weekend, is charting information on his patients, while superusers Dawn Craighton and April Lang are busy with work of their own.

The readiness team and superusers are talking and having a bit of fun just before go-live.

“It is getting better everyday, it just takes time”

-Amber Clark, FGH nurse

“With a little help from everyone we will be successful”

-Dee Keninger, FGH nurse
